**Product name: Vitamin B6**

**CAS: 8059-24-3**

**Molecular Weight: 244.31**

Item	Specification
Purity	99%
Melting point	231-233 °C(lit.)
MF	C10H16N2O3S
MW	244.31
Storage conditions	2-8°C

## Application:

Vitamin B6 is a coenzyme of transaminase and amino acid decarboxylase, which promotes the absorption of amino acids and protein synthesis, and is essential for cell growth. Participate in various metabolic processes within the body. Reduce stimulation of emetic chemoreceptors, alleviate symptoms such as nausea and vomiting, and promote the growth of white blood cells. External application can improve local nerve function and alleviate inflammatory reactions.

## Package:

Usually packed in 25kg/drum, and also can be do customized package.
