

Technical Data Sheet

Product Name: 1,3:2,4-Bis(3,4-dimethylbenzylideno) sorbitol

CAS NO.: 135861-56-2

Chemical Formula: C₂₄H₃₀O₆

Molecular Weight: 414.49

Product Description:

It is third generation sorbitol base clarifier. It can improve products transparency, increase resin throughput and productivity, enhance physical properties, best overall performance. Recommended dosage is 0.1 % -0.3%, and attention should be paid to its uniform dispersion in use.

Technical Indicators:

| | |
|-----------------|--------------------|
| Appearance | White loose powder |
| Purity | 98.0(%≥) |
| Melting Point | 270±5(°C) |
| Volatile Matter | 1.0(%≤) |
| Odor | Odorless |

Packing & Storage Precautions:

Expiration Date: 3 years

Storage Instruction: stored in ventilated and dry warehouse/ room temperature

Packing: 10kg/bag & carton
