

Technical data sheet of Asiatic acid

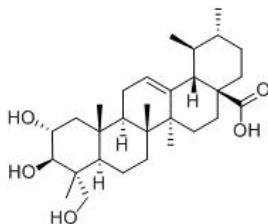

Product name: Asiatic acid

Other product name: DaMMarolic acid

Cas No.: 464-92-6

Molecular formula: C₃₀H₄₈O₅

Molecular weight: 488.7

Molecular structure:

Specification:

Item	Standard
Appearance	white powder
Boiling point	325-330°C
Flash point	336.4 °C
Density	1.18±0.1 g/cm ³ (Predicted)
Storage conditions	2-8°C
Acidity coefficient (pKa)	4.66±0.70 (Predicted)
Package	25kg/drum

Packing: 20kgs/drum or 25kgs/drum, 9tons/container

Application:

Asiatic acid has anti-irritant properties; skin repair, inhibits collagen synthesis; improves keratinization; stimulates skin cells, etc.
