Product name: Iron Oxide Black

CAS:12227-89-3

Molecular Weight:231.54

Item	Specification
CAS	12227-89-3
MF	Fe ₃ O ₄
MW	231.54
EINECS	235-442-5
Purity	99%
Item	Specification

Application:

Iron Oxide Black is mainly used for making primers and topcoats, and is also used as a rust inhibitor in the construction industry. High purity is an excellent magnetic material used for coating audio tapes. As an important iron-based pigment, iron oxide black is widely used in watercolors and inks. The main raw material for magnetic carbon powder used in copiers is needle shaped iron oxide black. In addition, iron oxide black can also be used in the production of high-end cosmetics due to its non-toxic and pollution-free characteristics.

Package:

Usually packed in 25kg/drum, and also can be do customized package.
