

Unilong Industry Co., Ltd

Add: No.2000 Shunhua Rd, High-Tech Zone , Jinan City, Shandong Province, China
Contact: +86-18653132120

Product name: Methyllithium

CAS: 917-54-4

Molecular weight: 21.98

Item	Standard
Appearance	clear and transparent
Effective content	2.45M-2.55M
Quality percentage	6.34%-6.59%
Diethoxymethane	94%±2%
Impurity	<0.30%

Application:

Lithium methyl is a common organic base and methylation reagent, widely used in organic synthesis and catalyst. Methyllithium can methylate a variety of functional groups, can remove protective groups, synthesize other methylated organometallic reagents, can be used as a base and reduce transition metals. Solvents and halogens have a great influence on the reaction using non-solvated methyl lithium.

Package:

200kg/drum or according to customer requirements.
