

Technical Data Sheet

Name: 1,8-Naphthalic anhydride

CAS: 81-84-5

Purity: 99%

Molecular Formula: C₁₂H₆O₃

Molecular Weight: 198.17

EINECS: 201-380-2

Packing: 25kg/bag

Technical indicators:

appearance	Off-white powder
Fusing point	269 °C
density	1.2571 (rough estimate)
content	99%

Application:

1, 8-naphthalic anhydride, is an organic compound, chemical formula C₁₂H₆O₃, mainly used as dyes, pesticides, medicine and polyester resin intermediates.
