

Technical Data Sheet

Name: MONOCAPRIN

CAS: 26402-22-2

Purity: 99%

Molecular Formula: C₁₃H₂₆O₄

Molecular Weight: 246.34

EINECS: 247-667-6

Packing: 25kg/bag

Technical indicators:

ITEM	STANDARD
Appearance	White powder
Water solubility	600mg/L at 33°C
Melting point	53 °C

Uses: Monocaprin (Glyceryl caprate) is a glyceride of decanoic acid and has antimicrobial activity against coated viruses, some bacteria, and Candida albicans.
